

From the HOD's Desk

We have enjoyed a very busy, interesting term so far, with a great number of successes at all levels. Our children, their input, your input as parents and the very dedicated staff here at Richmond Primary ensure that every single child is moulded to become successful in the future.

Each child here at Richmond Primary ensures a successful South Africa in the future.

Schooling is about so much more than just the academics. It is about team work, responsibility, integrity and above all, creating a social society in the future that will take South Africa forward on the global front! We also work on Social Cohesion and help develop within the school community, a shared moral community, which helps everyone to trust each other. We work each day towards the well being of every child in order to create a sense of belonging that promotes trust.

Creating opportunities, not based on gender, race, class or religion is the path we are working for our children. Richmond Primary and South Africa belong to all who live in it. We seek to build generations for the future who will have the skill, foresight and insight to see, create and take up the many opportunities in South Africa in order to take our Country forward and be highly skilled leaders in the future.

Marian Bruce

Grade 3

Since the beginning of the term our new teacher Mrs McKinley has started off well.

We have a newly painted classroom with many colourful posters.

We are doing new and interesting work. We are learning about insects, their bodies and how they help us.

We know how to keep our bodies healthy. We are learning new big words such as adjectives, phonemes and graphemes.

We are having fun doing hand art and learning to write in cursive.

We love our Grade 3 class.

Tara McKinley (Grade 3 Educator)

Additional exciting news
